

OH ! It broke!

Anastasia koulakari

One morning Martina was playing with her sister but suddenly she wasn't feeling so well .

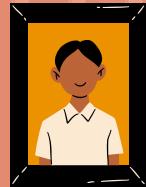

Oh! No! I have stomachache mummmyyyyy!

"What's going on honey? "

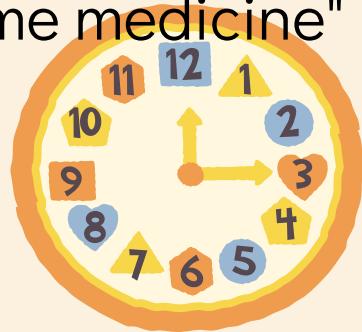

I'm not feeling well Martina said to her

"Let me check you carefully "

Her mother runs to take her temperature

"Oh! You have a fever, you should go to take a rest and I will bring you some medicine"

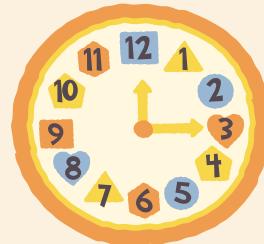

"OKAY mommy! "Martina said

Martina fell asleep after she took her medicine
After a few days Martina strated feeling a lot better .

**"let me check your temperature one more time
just to make sure you're okay"**

**"Mum can I use the thermometer by my self I
know how to do it "**

"Of course not! Thermometer! it's not a toy!

**It's very dangerous if it breaks , it contains a chemical
called mercury .**

Only an adult is allowed to use it."

The next morning came and Martina was finally fully recovered!

She decided that it was a good idea to play with the doctor's kit but instead of the fake thermometer she chose to use the real one .

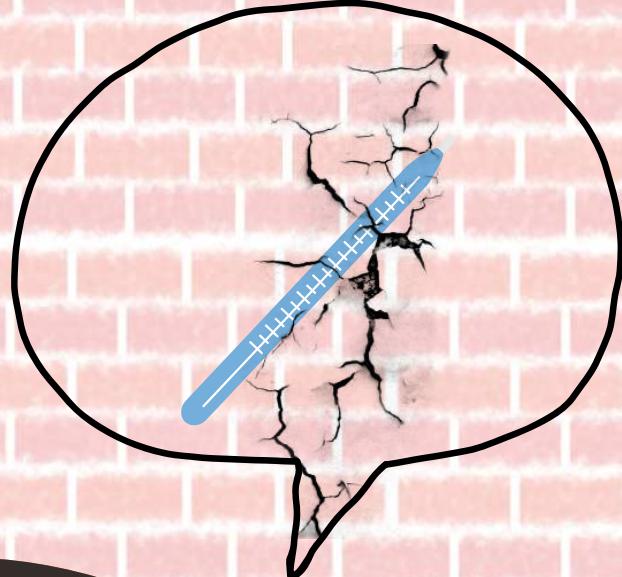

And suddenly Martina steps on it !

OH! Noooooo! it broke !It's broken!

What am i going to do? Maybe I can
clean it up?

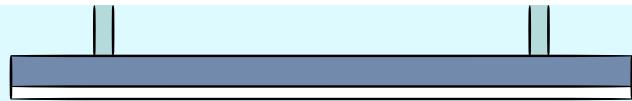

Mumyyyyyyy

Mumyyyyyyy!!!

They ran immediately to the hospital
Martina was so scared it was her first time going to the
hospital. The doctor's told them that it was important
to do medical tests.

It's important to spend the night here so we can take care of her just in case something goes wrong.

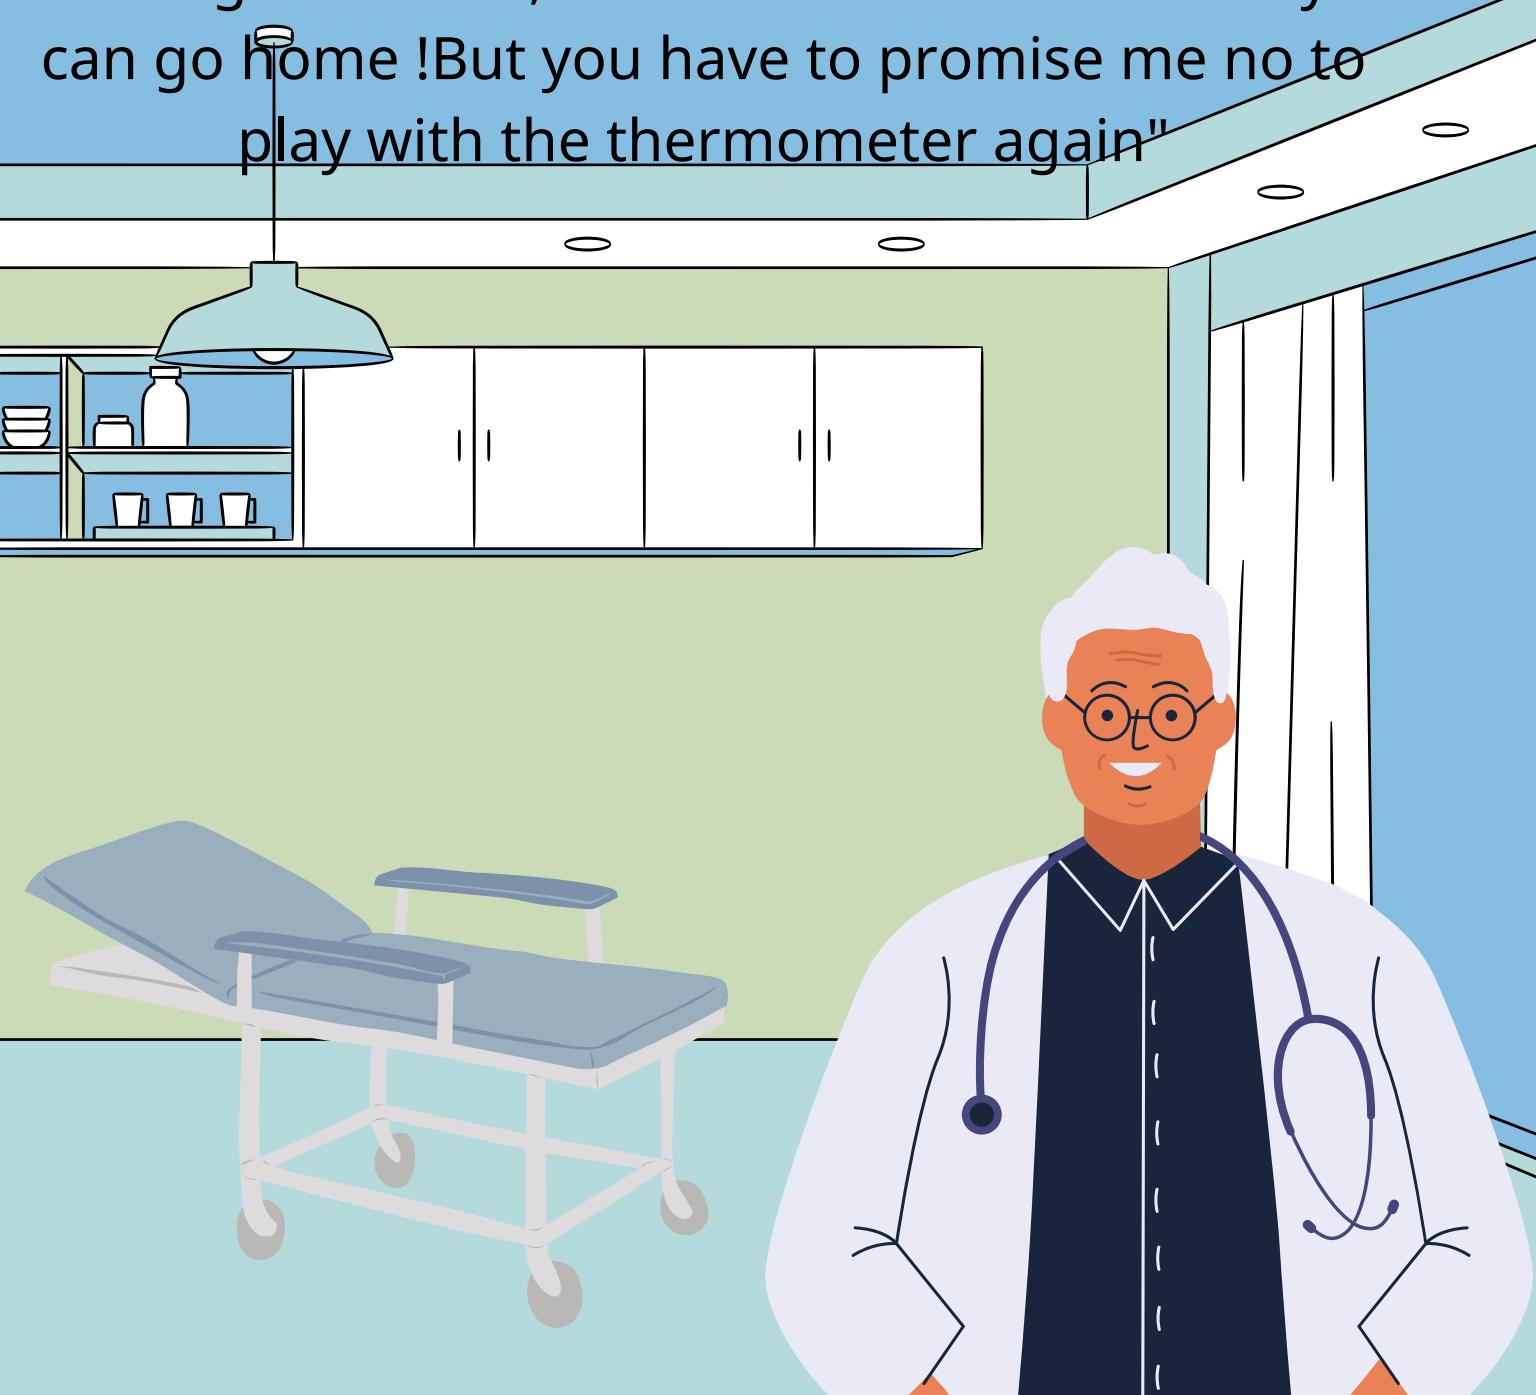

Martina spent the night in the kid's section. The room was full of toys and other sick kid's with their parent's

The next morning doctor Harry came .

"I have good news ,the results came out clean !you can go home !But you have to promise me no to play with the thermometer again"

Yeah! OK doctor I promise !
"Thank you so much "

"Mom I'm so sorry I promise I will listen to you from now on "

"It was my fault too I shouldn't let the thermometer near you, it's normal to think that you can play "

Martina recovered from her sickness. She played the role as a doctor. Suddenly, when she was playing something happened in a tragic way ! Finally from the whole situation she went through. She learned a lesson from it .
